

I am against this bill. In a market where over the air radio options is pretty much non existent I rely on XM radio. The local traffic and weather station in the Detroit area does not give up reliable up to date information that I find on XM radio. I do pay for XM radio and I feel that I should be able to have this service given to me, after all I am paying for it right? I can care less for "free radio" being offered by the NAB because I get what I pay for with "free radio" that is NOTHING! I also do not want to be subjected to the trash radio that is offered by the NAB. I would prefer that the lobbyists for the NAB take their money and stick it where their mouth cause or better yet stick it somewhere else. If this bill goes through it is obvious that America is run by big business and not the people
